

#13456482.0

Dear families or teachers,

Does your child or student with autism present challenging behavior?

We are conducting a research study that provides parent or teacher coaching sessions on how to understand and support the individual's needs and behaviors in a positive manner.

You may be eligible to participate in a research study if your child/student has a diagnosis of autism, is between ages of 5 and 21 years old and presents challenging behavior.

We will ask you to:

- Come to the Hussman Institute for Autism for a few 1-2 hour assessment sessions;
- fill out forms telling us about your child's behaviors;
- and participate in coaching sessions at home and in the Institute for approximately **12 weeks**.

If you are interested, please contact:

Fernanda T. Orsati, Ph.D.
